

Here is the first Instructional clip 'How To Wear a Lederhosn' by Hera's Costume Hire.

Lederhosn are best matched with a smart linen shirt, a colourful scarf....and much more!

Let's begin with the socks, which are worn loosely on the calf.

Make sure to hold the Lederhosn in the right position, with the middle and left button opened and the braces hanging down on either side. Now you can step into the Lederhosn, with the braces still left hanging!

Now slip on the linen shirt and tuck it into the trousers. What follows is the typical hand movement: slipping on the braces and fastening the buttons on the inside first and then on both sides of the loincloth. A colorful scarf finishes off the look!.

The shoes are tied on either side. The same applies to the Lederhosn to fasten them below the knee.

On colder days one may wear a Jacket called 'Joppe' in Bavarian and a traditional hat. And we're ready to go!

And finally, a quick reminder for a trip to the restrooms....
